

BLUNT

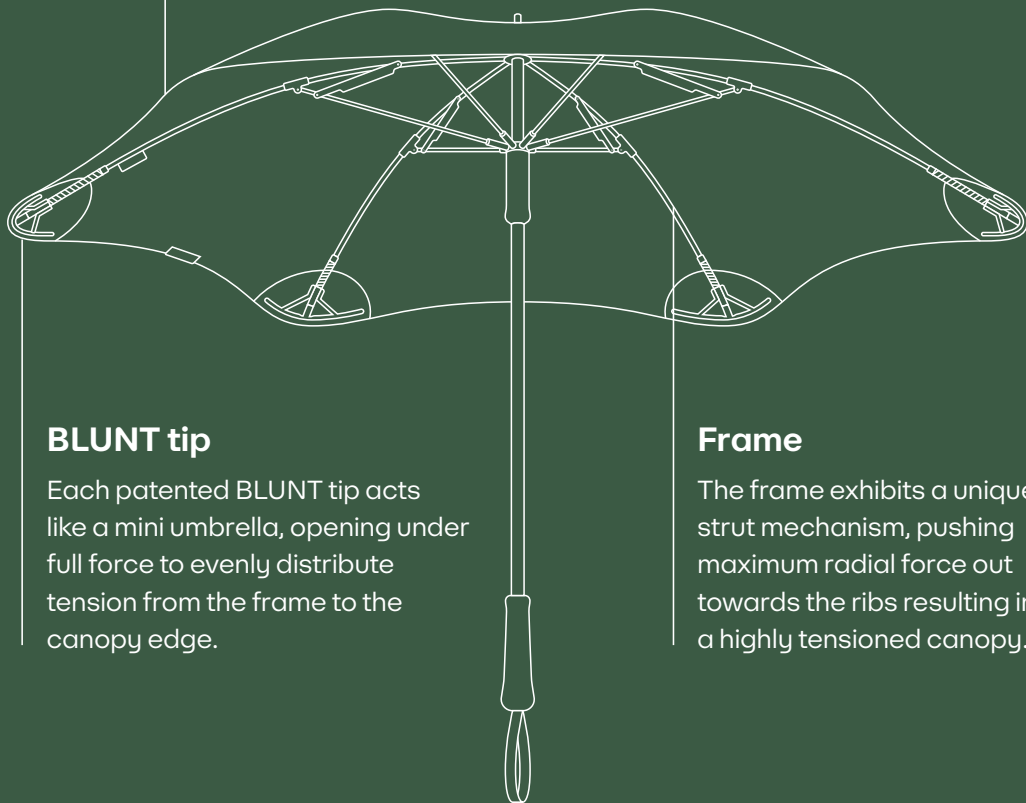

Corporate Collection

The BLUNT umbrella

Canopy

Our iconic canopy shape is the result of the patented BLUNT tips, providing a taut contour for ultimate performance.

BLUNT tip

Each patented BLUNT tip acts like a mini umbrella, opening under full force to evenly distribute tension from the frame to the canopy edge.

Frame

The frame exhibits a unique strut mechanism, pushing maximum radial force out towards the ribs resulting in a highly tensioned canopy.

Built to last

Patented innovation

Repair before replace

Wind tunnel tested

2 year warranty

High tensioned canopy

The problem with traditional umbrellas

The core umbrella design has not changed in 150 years and has been a constant source of frustration since its inception. Traditional umbrellas are mass-produced and disposable, frequently ending up in landfill due to sagging canopies, broken ribs and tips tearing through the edge of the canopy fabric. This not only hinders performance but can be a real hazard on a busy, populated street.

The BLUNT difference

BLUNT umbrellas feature patented technology in the tips which act like mini umbrellas, opening under full force to evenly distribute tension from the frame to the canopy edge. These tips not only give us our iconic shape but also provide a taut contour for ultimate performance. The frame also exhibits a unique strut mechanism, pushing maximum radial force out to achieve our highly tensioned canopy.

Our Smallest, Smartest Yet.

Say hello to Neo - the newest addition to the BLUNT family. Small in size but big on strength, Neo brings our signature engineering to a sleek, ultra-compact design made for modern life. Light enough to live in your bag and strong enough to weather whatever comes your way, Neo is your go-anywhere, everyday essential.

	Open Diameter	98cm	38.5in
	Closed Length	26cm	10.2in
	Weight	300g	0.66lb

Product Specs

At over 40% smaller when collapsed than our Metro, Neo showcases the next evolution in BLUNT engineering: compact design without compromise on coverage.

The BLUNT Neo is our lightest umbrella yet, weighing just 300g / 0.66lb. The open diameter of the Neo is 98cm / 38.8in and has a closed length of 26cm / 10.2in.

Panel Branding

Branding on 1, 2 or 3 canopy panels and/or umbrella sleeve. Available in black and white, or full color.

Packaging

Our boxes are elegantly premium, plastic-free, certified FSC and fully recyclable.

Sustainable by design

We are B Corp certified

B Corp certification solidifies our dedication to fostering positive change and doing business for good. BLUNT now joins a community of over 8,500 B Corps worldwide leading the charge towards a more sustainable future across more than 160 industries and 98 countries.

Built to last

In opposition to the weaknesses and wastefulness of traditionally mass-produced products, BLUNT umbrellas are built to last, tested to extremes and are modular for repairability. Meaning if cared for and loved, they will provide a lifetime of protection and confidence from the elements.

Repair, not replace

We have multiple workshops across the globe to repair BLUNT umbrellas. We aim to scale and decentralize repairs by expanding our in-house workshops and supporting customers to do their own repairs at home. Our vision is to save waste from going to landfill whilst saving you money.

Our packaging

Our packaging ethos is no different to the rest of the products – constant innovation and iteration to find better ways of doing things over time. Plastic-free, certified FSC and package size reductions are the latest improvements made on our journey towards better.
