# Skullcandy Smokin' Buds True Wireless Earbuds

### Why We Love It

Premium, eco-friendly true wireless earbuds from one of the most trusted brands in audio.

### How To Sell It

Supreme sound, packed full of features with 20+ hours of battery — at a price that won't break your budget.

#### **SUPREME SOUND™**

Smokin' Buds feature drivers that have been selected and expertly tuned, plus EQ modes that deliver the best audio quality for music, movies or podcasts. A microphone in each bud makes it possible to use either one solo. They also come with ovalized ear inserts for a comfortable, noise-isolating fit.

#### **SIMPLIFY YOUR LISTENING™**

The earbuds automatically turn on and connect to the most recently paired device every time they're removed from the charging case. Touch controls also allow you to activate your device's native voice assistant.

#### **FEARLESS USE™**

Smokin' Buds feature 20+ hours of battery — that's 8 hours in the buds and 12 hours in the case — plus Rapid Charge. They also boast IPX4 sweat- and water-resistance, so they can handle extra-sweaty workouts and unexpected storms
